

DEFENSE SPENDING BY STATE

FISCAL YEAR 2023

U.S. Department of Defense
Office of Local Defense Community Cooperation

ACKNOWLEDGMENTS

The Office of Local Defense Community Cooperation (OLDCC) partnered with the Library of Congress's Federal Research Division (FRD) to produce this report. FRD's analytical team includes Vega Bharadwaj, Katarina David, Megan Marra, Sarah McNeal, Noah Milstein, Nathaniel Reynolds, and Alan Stone. Anastasia Forbes and Elizabeth Chimienti managed this project for OLDCC and provided input throughout the report's development.

This research benefited from the guidance of staff at the DoD's Defense Manpower Data Center, the U.S. Department of the Treasury, and the Congressional Research Service. Experts at the American Enterprise Institute, Brookings Institution, Center for a New American Security, and Center for Strategic and International Studies generously offered feedback on earlier versions of this report.

An electronic copy of this report is located online at <https://oldcc.gov/defense-spending-state-fiscal-year-2023>.

INTRODUCTION

This report presents the results of a state-by-state analysis of U.S. Department of Defense (DoD) contract, grant, and personnel spending during fiscal year (FY) 2023. The report’s graphs, maps, and tables present a range of findings, such as total spending figures, categories of contracted goods and services, major defense contractors, and numbers and types of defense personnel. State and local officials may use this information to assess a region’s dependence on defense spending and to target assistance to support more resilient communities and companies.

Conducted between March 2024 and September 2024, the analysis primarily entailed an examination of DoD-funded prime and sub-award contract data, grant prime and sub-grant awards, and defense personnel and payroll figures. Findings are drawn from an array of sources, including the DoD’s Defense Manpower Data Center and USAspending.gov, which is managed by the U.S. Department of the Treasury.

FY 2023 Overview

The DoD’s budget authority increased from \$795.7 billion in FY 2022 to \$874.3 billion in FY 2023.¹ DoD contract obligations, grant obligations, and payroll spending in all 50 states and the District of Columbia totaled \$609.2 billion, approximately \$1,819 per U.S. resident and 2.2 percent of the country’s gross domestic product (GDP) (see table 1). Contracts for various products and services totaled \$431.4 billion, thus comprising the majority of the spending, while DoD personnel payroll accounted for \$167.4 billion, and DoD grant spending accounted for \$10.4 billion.

Most contract funds went to supplies and equipment (such as aircraft, ships, weapons, and parts; 51 percent) and services (36 percent), with research and development (10 percent) and construction (3 percent) comprising the remainder. The largest portion of personnel pay was for active duty military (46 percent), followed by civilians (41 percent), the National Guard (8 percent), and the Reserves (5 percent). Grant awards for FY 2023 were analyzed at the state level only.

Table 1: Top 10 States by Total Defense Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Texas	\$71.6
2	Virginia	\$68.5
3	California	\$60.8
4	Florida	\$32.3
5	Maryland	\$27.8
6	Connecticut	\$25.3
7	Pennsylvania	\$21.8
8	Arizona	\$17.0
9	Massachusetts	\$16.8
10	Washington	\$15.5
Total for Top Ten States		\$357.2
Total for 50 States and District of Columbia		\$609.2

Total defense spending ranged from \$577 million in Vermont to \$71.6 billion in Texas, with a median value of \$7.3 billion per state among the 50 states and the District of Columbia.

Table 2: Top 10 States by Defense Spending as Percentage of State GDP

RANK	STATE	PERCENTAGE
1	Virginia	9.7
2	Hawaii	9.2
3	Connecticut	7.4
4	Alaska	7.0
5	Mississippi	6.1
6	District of Columbia	5.9
7	Maryland	5.4
8	Kentucky	5.2
9	Alabama	4.8
10	Maine	4.6

¹ Office of the Under Secretary of Defense (Comptroller), *National Defense Budget Estimates for FY 2025* (Washington, DC: April 2024): page 152-153, https://comptroller.defense.gov/Portals/45/Documents/defbudget/fy2025/FY25_Green_Book.pdf.

Approximately 59 percent of the DoD's \$609.2 billion went to 10 states (see table 1). On average, defense spending comprised 2.6 percent of a state's GDP. Several states that exceeded this average, however, were not among the top recipients of total defense spending, including Hawaii (9.2 percent of state GDP), Alaska (7.0 percent), Mississippi (6.1 percent), the District of Columbia (5.9 percent), Kentucky (5.2 percent), Alabama (4.8 percent), and Maine (4.6 percent; see table 2).

Further review shows that some states received substantial funds for contract, grant, and personnel spending, while other states received relatively high amounts in only one. Specifically, California, Maryland, Florida, Texas, and Virginia were all among the top ten recipients of defense contracts, grants, and personnel spending. In addition, New York was the only state among the top ten recipients of defense contract funds that was not among the top ten states for overall defense spending (see table 3).

Colorado, Georgia, Hawaii, and North Carolina were among the largest recipients of defense personnel spending, but were not among the top states for overall defense spending (see table 4).

Table 3: Top 10 States by Defense Contract Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Texas	\$58.7
2	Virginia	\$46.8
3	California	\$41.2
4	Connecticut	\$24.3
5	Florida	\$22.9
6	Maryland	\$18.3
7	Pennsylvania	\$18.2
8	Massachusetts	\$15.0
9	Arizona	\$14.5
10	New York	\$11.7
Total for Top Ten States		\$271.6
Total for 50 States and District of Columbia		\$431.4

Similarly, Alabama, Michigan, and New York were among the top recipients of defense grant awards, but were not among the top states for overall defense spending (see table 5).

Table 4: Top 10 States by Defense Personnel Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Virginia	\$21.3
2	California	\$18.2
3	Texas	\$12.5
4	Florida	\$8.9
5	Maryland	\$8.7
6	North Carolina	\$7.8
7	Washington	\$7.7
8	Georgia	\$7.5
9	Hawaii	\$6.2
10	Colorado	\$4.0
Total for Top Ten States		\$102.8
Total for 50 States and District of Columbia		\$167.4

Table 5: Top 10 States by Defense Grant Spending

RANK	STATE	DEFENSE SPENDING (millions)
1	California	\$1,352.7
2	Maryland	\$781.9
3	Michigan	\$695.5
4	Massachusetts	\$530.2
5	Pennsylvania	\$416.4
6	Virginia	\$404.8
7	Texas	\$393.2
8	Florida	\$373.5
9	New York	\$372.4
10	Alabama	\$345.3
Total for Top Ten States		\$5,666.0
Total for 50 States and District of Columbia		\$10,432.3

An Excel-formatted workbook featuring metrics from the FY 2023 report is located at <https://oldcc.gov/dsbs-fy2023>.

Appendix 2 contains additional details on this report's research methodology.

SUMMARY TABLE

The following table shows U.S. Department of Defense (DoD) contract, grant, and personnel spending data for all 50 states and the District of Columbia (listed alphabetically) in fiscal year (FY) 2023, which can be used to provide information and statistics about various topics, such as:

- The importance of defense spending for a state's economy (Columns 1 and 3).
- How that spending compares to other states and the country overall (Columns 2, 11, and 12).
- The association between defense spending and a state's economic reliance on defense-related employment and industries (Columns 4-10).

The columns show the following variables:

- 1. Defense Spending as a Share of GDP** identifies the total amount of defense spending (i.e., contracts, grants, and payroll) per state as a share of that state's GDP. This provides an indication of the degree to which a state's economic health depends on such funding and how vulnerable a state is to DoD spending changes.
- 2. State Share of Total U.S. Defense Spending** calculates each state's share of total defense spending (contract obligations, grant awards, and payroll in the 50 states plus the District of Columbia), which helps to identify the largest and smallest recipients of DoD funding.
- 3. Defense Spending per Resident** is the amount DoD spent per resident in a state or the District of Columbia on defense contracts, grants, and payroll. Like "Defense Spending as a Share of GDP," it shows a state's relative dependence on and vulnerability to changes in this type of support.
- 4. Total Contract, Grant, and Payroll Spending** is the sum of all DoD contract obligations, grant awards, and payroll in a state or the District of Columbia.

5. Total Contract Spending shows the amount DoD obligated to contracts in a given state or the District of Columbia.

6. Grant Spending is the total amount DoD awarded as grants in a given state or the District of Columbia.

7. Total Payroll is the gross pay received by active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia during FY 2023. These figures, as well as those in columns 8-10, do not include benefits for current or former defense personnel.

8. Civilian Pay shows the total gross pay to DoD civilian personnel in FY 2023.

9. Military Active Duty Pay equals the total gross pay to active duty personnel in FY 2023.

10. National Guard & Reserve Pay refers to the total gross pay received by National Guard and Reserve personnel in FY 2023.

11. Ranking by Defense Spending as a Share of State GDP indicates a state's placement among the 50 states and the District of Columbia with respect to the total amount of defense spending (i.e., contracts, grants, and payroll) as a share of that state's GDP.

12. Ranking by Total Defense Spending likewise indicates a state's placement among the 50 states and the District of Columbia.

Detailed information on the methodology for these statistics is included in appendix 2.

HOW TO READ THIS REPORT

The following information briefly describes the statistics listed in the state profiles throughout this report. A listing of military installations by state and county can be found in appendix 1. More detailed information on the methodology is included in appendix 2.

DEFENSE CONTRACTS

- A** *Defense Contracts* refers to U.S. Department of Defense (DoD) obligations through DoD-funded contracts during fiscal year (FY) 2023 (i.e., October 1, 2022 through September 30, 2023). All contract data are from USAspending.gov and include prime awards the DoD made to private- and public-sector contractors, as well as sub-awards that prime-award recipients provided to subcontractors.
- B** *Defense Contracts, By Type* represents the proportions of total prime and sub-award obligations in a state that went to four product and service categories: construction; research and development; service; and supplies and equipment. The DoD's Procurement and Acquisition Policy was used to categorize spending on the products and services identified by the product service code listed in each prime award record.
- C** *Defense Contracts, By Service* is the percentage of defense contract spending that was funded by the Military Services or Other Defense activities. This category includes the Office of the Secretary of Defense, Joint Chiefs of Staff, Inspector General (DoD), U.S. Court of Appeals for the Armed Forces, Defense Agencies, and the Defense Field Activities. These figures include prime awards and sub-awards since both records have fields that identify the federal agency that funded the award.
- D** *Top Defense Contractors* lists the private- and public-sector contractors that were among the ten largest recipients of DoD obligations in a state or the District of Columbia. These figures are adjusted to reflect the place of performance for prime and sub-awards (see appendix 2 for details).
- E** *Contract Awards Performed by Fiscal Year* represents the total value of defense contract awards in a state or the District of Columbia for each fiscal year from FY 2016 through FY 2023.

DEFENSE PERSONNEL

- F** *Defense Personnel* includes the total numbers of active duty, civilian, National Guard, and Reserve personnel in a state or the District of Columbia on September 30, 2023. Defense payroll figures are the total gross pay received by those personnel in FY 2023. The states and counties refer to the duty locations for active duty and civilian personnel. National Guard and Reserve personnel figures are based on assigned locations. These data are from the DoD's Defense Manpower Data Center (DMDC).
- G** *Allocations, By Type* indicates the proportion of total defense personnel with an assigned or duty location in a state or the District of Columbia who were active duty, civilian, National Guard, or Reserve personnel on September 30, 2023.
- H** *Allocations, By Service* represents a snapshot of the proportion of total defense personnel across the Military Services and other DoD activities with an assigned or duty location in a state or the District of Columbia on September 30, 2023.
- I** *Total Payroll and Personnel* is the total gross pay during FY 2023 and count of all active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia on September 30, 2023. Pension payments and other benefits are not included in the payroll figure.
- J** *Top Defense Personnel Locations* lists the ten counties with the highest numbers of defense personnel reported on September 30, 2023. Personnel numbers are not disclosed—indicated by “ND”—for counties in which the numbers of active duty, civilian, or National Guard and Reserve personnel are ten or fewer to protect those individuals' personally identifiable information.

SUMMARY BAR

- K** ***\$ Spent in State*** is the combined total of defense contract obligations, grants, and defense personnel spending in a state or the District of Columbia during FY 2023. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- L** ***% of State GDP*** represents the combined total of defense contract obligations, grants, and personnel spending as a proportion of a state or the District of Columbia's GDP in FY 2023. The state's GDP is the total value of all goods and services produced in a given fiscal year; these data are from the U.S. Department of Commerce's Bureau of Economic Analysis. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- M** ***% of Total U.S. Defense Spending*** is the combined total of defense contract obligations, grants, and personnel spending in a state or the District of Columbia as a proportion of the DoD's contract and personnel spending in all 50 states and the District of Columbia in FY 2023.
- N** ***\$ per Resident*** highlights the combined total defense contract obligations, grants, and personnel spending in a state or the District of Columbia divided by the area's overall population. These population figures are July 1, 2023 estimates provided by the U.S. Census Bureau.
- O** ***Contract Spending*** is the total amount of contracts the DoD obligated for products and services in a state or the District of Columbia during FY 2023. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- P** ***Grant Spending*** is the total amount of grant awards the DoD obligated to recipients in a state or the District of Columbia during FY 2023. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- Q** ***Number of Personnel*** indicates the total number of active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia on September 30, 2023. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- R** ***Personnel Spending*** totals the gross pay received by active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia during FY 2023. This figure does not include pension payments or other benefits. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.

📍 TOP DEFENSE CONTRACT SPENDING LOCATIONS

- S** ***Top Defense Personnel Spending Locations*** lists and shows the ten counties and county equivalents in a state with the highest defense contract obligations in FY 2023. For states with fewer than ten counties, all counties are identified. The District of Columbia is the only jurisdiction represented by a single location.

📍 TOP DEFENSE PERSONNEL SPENDING LOCATIONS

- T** ***Top Defense Personnel Spending Locations*** lists and shows the ten counties and county equivalents within a state with the highest gross pay received by active duty, civilian, National Guard, and Reserve personnel during FY 2023. For states with fewer than ten counties, all counties are identified. The District of Columbia is the only jurisdiction represented by a single location.

Source: Military Installations, Ranges and Training Areas data Fiscal Year 2022, from authoritative sources provided to the Office of the Assistant Secretary of Defense for Energy, Installations, and Environment by Component Installation Geospatial Information and Services Programs.

APPENDIX 2: METHODOLOGY

This section contains additional details on the processes applied to derive the statistics provided in the state profiles throughout this report, as well as information on the military installations depicted in the maps in those profiles.

A. Defense Contracts

This section refers to U.S. Department of Defense (DoD) contract obligations during fiscal year (FY) 2023 (i.e., October 1, 2022 through September 30, 2023). DoD-funded grant awards and gross pay, which are discussed in sections F and G respectively, are the only other types of defense spending included in this report.

Contracts are the principal method through which the DoD and other federal agencies spend money. The phrase “contract spending” reflects federal agencies’ use of contracts with suppliers to purchase all products and services over a legally specified threshold, which increased to \$5,000 on April 13, 2018, and to \$10,000 on August 31, 2018 (federal agencies can use agency credit cards to buy products and services valued at less than those amounts). While the DoD and other federal agencies obligate funds through other means, those payments comprise a small percentage of the DoD’s total expenditures.²

Contract obligation amounts are calculated from data obtained through USAspending.gov, a publicly available database of unclassified federal spending maintained by the U.S. Department of the Treasury. All relevant transaction records downloaded from USAspending.gov, over 31 million in total, listed the DoD as the “funding agency,” and most of those records (99 percent) also listed the DoD as the “awarding agency.” Contract spending amounts reflect obligations rather than actual expenditures. Totals are comprised of:

- Contract prime awards that federal agencies provide to private- and public-sector organizations and individuals for products (e.g., clothing and ships) and services (e.g., information technology and research and development), and

- Sub-awards that prime award recipients provide to sub-contractors.³

Contract spending figures in this report have not been adjusted for inflation.

Prime and Sub-Award Reporting

Steps were taken to ensure the prime and sub-award data were accurately reported. In cases where a prime contractor sub-contracted another vendor, the sub-contract amount was subtracted from the prime contractor’s total, as well as from the totals for the state and county in which the prime contractor was located. Moreover, the amount was added to the sub-contractor’s total and the spending for the state and county in which the sub-contractor was located.

Fiscal Years for Contract Spending

This report incorporates two different methods for assigning contract prime and sub-awards to a particular fiscal year. The researchers allocated spending associated with prime awards to the fiscal year in which the prime award was obligated, and allocated all subsequent additions and subtractions of funds to the fiscal year in which those funding changes occurred. For example, if a prime award of \$100 was signed on March 1, 2017, then the \$100 in funds was allocated to FY 2017. If the DoD added \$50 to the contract on October 15, 2017, then such funds were assigned to FY 2018. If the DoD deducted \$25 from the same prime award on April 30, 2019, then that deduction was allocated to FY 2019.

Contract sub-award amounts were deducted from the fiscal year in which the associated award received the most prime funds, and added to the fiscal year during which the sub-award was made, unless the sub-award was made during the same fiscal year that the most

² Office of the Undersecretary of Defense for Acquisition and Sustainment, “Class Deviation - Micro-Purchase Threshold, Simplified Acquisition Threshold, and Special Emergency Procurement Authority,” August 31, 2018, <https://www.acq.osd.mil/dpap/policy/policyvault/USA002260-18-DPC.pdf>.

³ In accordance with Federal Acquisition Regulation clause 52.204-10 (Reporting Executive Compensation and First-Tier Subcontract Awards), prime contractors awarded a federal contract or order are required to file a sub-award report by the end of the month following the month in which the prime contractor awards any subcontract greater than \$30,000. (General Services Administration, “About FFATA,” accessed August 1, 2024, <https://www.fsrs.gov/#a-faqs>).

prime award funds were obligated.

Continuing with the previous example, if a prime award of \$100 was signed in FY 2017 and the contractor issued a \$25 sub-award in FY 2017, then the \$25 is deducted from the prime contractor's total and added to the sub-contractor's figures for FY 2017. In this case, FY 2017 is the year during which both prime funds were obligated and sub-awards were made. If a prime award of \$100 was signed in FY 2017, was subsequently awarded an addition of \$200 in FY 2018, and then the prime contractor issued a \$25 sub-award in FY 2019, then that \$25 is deducted from FY 2018 (the year in which the highest amount of funds was obligated to the prime award) and added to FY 2019 for the sub-contractor.

B. Defense Contracts, By Type

This represents the proportion of total prime award spending in a state or the District of Columbia that went to four product and service categories: construction, research and development, service, and supplies and equipment. The list of legacy Better Buying Portfolio categories on the DoD's Product Service Code (PSC) Selection Tool was used to categorize the spending on the products and services identified by the PSC listed in each prime award record.⁴ The federal government uses these codes to identify the products or services that comprise the majority of spending in a prime award contract. Sub-award records do not contain such a code or any other product or service identifier. Therefore, sub-award spending was categorized by the PSC of the prime award against which the sub-award was made.

C. Defense Contracts, By Service

This statistic is the percentage of defense contract spending in a state or the District of Columbia that was funded by the Military Services or other DoD activities in FY 2023. For prime awards, the "Funding Sub Agency Code" field was used to identify the specific agency that funded an award. For sub-awards, the Funding Sub Agency Code listed for the associated prime award was used to identify the funding agency for the sub-award. All awards identifying the U.S. Departments of the Army, Navy, and Air Force were categorized as "Army," "Navy/Marines," and

"Air Force/Space Force."

All other DoD activities, such as the Defense Health Agency or Defense Logistics Agency, are categorized as "Other Defense."

D. Top Defense Contractors

This list includes the private- and public-sector contractors that were among the ten biggest recipients of DoD spending in a state or the District of Columbia during FY 2023.

Researchers identified contractors using the name of the ultimate parent of the contract recipient, if a parent recipient was provided in the contract records. If no parent recipient was recorded, the researchers identified contractors by their individual recipient names. Researchers conducted rigorous quality assurance on the list of all contractor names to remove inconsistent names used for the same recipients. Researchers also reviewed recent mergers and acquisitions among defense contractors to standardize changing recipient names over the eight-year period of interest.

E. Contract Awards Performed, By Fiscal Year

These numbers represent total defense contract awards in a state or the District of Columbia for each fiscal year since 2016. Calculated according to the methodology described in Section A, these figures include both prime and sub-awards, and are often different from those listed in previous versions of this report. These differences reflect contract modifications (e.g., the addition/reduction of funds) that occurred after the data were obtained for the prior reports, as well as the methods used to assign prime and sub-awards to specific fiscal years. This report reflects the most current estimates of obligation amounts in each state in each fiscal year.

F. Defense Grants

This section refers to DoD grants awarded during FY 2023 (i.e., October 1, 2022 through September 30, 2023).

Grant awards are a form of financial assistance from the DoD (and other federal agencies) to carry out a public

⁴ U.S. Department of Defense, Defense Pricing and Contracting Office, "Product Service Code (PSC) Selection Tool," accessed August 1, 2024, <https://psctool.us/>.

project or service authorized by United States Law.⁵ Although most grants are awarded to state and local governments, “grant spending” in this report reflects all grant obligations to both governmental and nongovernmental recipients, and of all types, including block grants, formula grants, project grants, and cooperative agreements. In comparison to contracts, grants represent a small percentage of DoD’s total award obligations (2 percent).

As with the contract obligations detailed above, grant award amounts are calculated from data obtained through USAspending.gov. All of the nearly 23 thousand prime award transactions downloaded from USAspending.gov for this report listed the DoD as the “funding agency,” and most of those records (99 percent) also listed the DoD as the “awarding agency.” As with contracts, grant spending reflects obligations rather than actual expenditures, from both grant prime awards, awarded by the federal government to private- and public-sector organizations, and grant sub-awards, awarded by those recipients to other organizations.

All grant spending in this report is summarized at the state level and reflects obligations from FY 2023 prime awards and sub-awards, including FY 2023 sub-awards of pre-FY 2023 prime awards. The location of both prime-award grant spending and sub-award grant spending was allocated to the award recipient state. Obligations for FY 2023 sub-grants of FY 2023 prime grants were allocated to the sub-award recipient state and deducted from the prime-award recipient state.

Grant spending figures in this report have not been adjusted for inflation.

G. Defense Personnel

This section refers to the total active duty, civilian, National Guard, and Reserve personnel in a state or the District of Columbia in FY 2023. Defense payroll figures represent the total gross pay received by those personnel through FY 2023, while personnel counts reflect the levels on

September 30, 2023. These data are from the DoD’s Defense Manpower Data Center (DMDC). Readers are cautioned not to compare personnel counts from the Defense Spending by State FY 2016 report to the FY 2023 report. As was the case in the FY 2017 through FY 2022 reports, this report reflects DMDC data for all personnel corresponding to a single snapshot in time (September 30, 2022) rather than over the course of the fiscal year.

Readers may notice that states with a large Navy/Marine presence (e.g., California, Washington, Virginia, and South Carolina) appear to have significantly increased in personnel and payroll from the FY 2017 version of this report. This is due to a change in how DMDC counts personnel. Personnel who previously appeared to be assigned to Armed Forces Americas or Armed Forces Europe are reported in FY 2018 through FY 2023 in their home-port state, but with an APO/FPO zip code of their current overseas location. Since APO/FPO zip codes do not have corresponding counties, their county is unknown, but they are included in state totals.

H. Military Installations

The installations depicted in the maps throughout this report are drawn from the DoD’s “Military Installations, Ranges, and Training Areas” (MIRTA) dataset. The “MIRTA” dataset contains geospatial data (i.e., latitude and longitude) on the point locations and boundaries of DoD facilities listed in the DoD’s FY 2022 Base Structure Report. The points represent the centers or near-centers of DoD sites, and the boundaries comprise federally owned or managed land. The point centers were used to infer the relevant county name via the Census Bureau’s geocoding tool, <https://geocoding.geo.census.gov/geocoder>.

The dataset is in a shapefile format, which is common for geographic information systems, and conforms to the World Geodetic System 1984, a frequently used terrestrial reference system referred to as “WGS84.” The data are in decimal degrees. Many facilities in the “MIRTA” dataset include subordinate sites. For various reasons, not all military installations are included.⁶

⁵ USAspending.gov glossary official definition of grant: “A federal financial assistance award making payment in cash or in kind for a specified purpose. The federal government is not expected to have substantial involvement with the state or local government or other recipient while the contemplated activity is being performed. The term “grant” is used broadly and may include a grant to nongovernmental recipients as well as one to a state or local government, while the term “grant-in-aid” is commonly used to refer only to a grant to a state or local government. (For a more detailed description, see the Federal Grant and Cooperative Agreement Act of 1977, 31 U.S.C. §§ 6301–6308.) The two major forms of federal grants-in-aid are block and categorical” (USAspending.gov, “Glossary,” accessed August 1, 2024, <https://www.usaspending.gov/?glossary=grant>).
